PROFESSIONAL SUMMARY

Tech-enthusiastic IT graduate with a strong interest in cybersecurity, Python-based development, and vulnerability hunting. Hands-on exposure to threat analysis, risk assessment, and security monitoring through SIEM tools and log analysis, backed by an Advanced Diploma in Cyber Defence and CEH certification. Quick learner with strong analytical and problem-solving abilities, eager to apply Python development and security assessment skills to a Cyber Security role.

SKILLS

Programming Languages: Python

Cybersecurity Skills: Threat Analysis, Risk Assessment, Vulnerability Hunting, Penetration Testing, Vulnerability Assessment, Basic Web Application Security, VAPT

Cybersecurity Tools: Splunk, Wireshark, Burp Suite, Nmap, Metasploit, Nessus, Nikto, Hydra, Aircrack-ng

Operating Systems: Linux, Windows

Soft Skills: Communication, Teamwork, Critical Thinking, Problem Solving, Observation, Time Management

CERTIFICATIONS

- Certified Ethical Hacker (CEH) — EC-Council

PROJECTS

Splunk SIEM Log Monitoring System

Configured Splunk Enterprise for centralized log collection and security monitoring. Integrated Splunk Universal Forwarder to collect system logs and created alerts to detect suspicious login activity.

Log Monitoring Using Wazuh

Deployed and configured Wazuh for centralized security log monitoring and threat detection. Set up agents to collect and analyze system logs, enabling real-time alerting on potential security events.

EDUCATION

Bachelor of Vocational Studies in IT *Christ College Autonomous, Irinjalakuda, Kerala, India*

Advanced Diploma in Cyber Defence *Red Team Hackers Academy, Thrissur, India*
